Canadian Museum for Human Rights

INTRODUCTION

This report provides a profile of the inaugural exhibitions for the Canadian Museum for Human Rights from the perspective of visitor experience. It includes a summary sheet on each gallery, followed by detailed data sheets on the individual visitor experiences planned for that gallery.

The purpose of this report is to illustrate how content and design will work together to create a meaningful experience for the visitor, by looking at what the visitor will see, learn, and do. The data sheets also indicate how the exhibitions serve specific audiences, such as children under 12 and organized groups. The analysis of this information will feed into the development of educational and public programming strategy.

CONTENT CONSIDERATIONS

This document provides a high-level summary of the content to be presented in the galleries. These summary statements do not replace the approach papers developed by the Curatorial and Research departments.

An extensive consultation and research process shaped the selection of content for the Canadian Museum for Human Rights. The process involved the following phases:

- Cross-Canada public engagement tour in 2009-10 with the Content Advisory Committee.
Over 2000 Canadians were consulted.
- Research (including oral history research) by the Museum's expert staff
- A second round of cross-Canada public engagement in 2010-11
- Input from stakeholders such as the Human Rights Advisory Council, the Friends of the Canadian Museum for Human Rights, the Inclusive Design Advisory Committee and stakeholder communities.
- Drafting of approach papers that were peer-reviewed and presented to the Board

The selection of stories was guided by the following principles. Museum content needs to:

- Emerge from sound and ethical human rights scholarship
- Have appropriate resource material (images, objects, stories) for presentation in a museum
- Be comprehensive in scope
- Present multiple perspectives
- Represent Canada's cultural diversity
- Represent all regions of Canada
- Represent different time periods
- Balance Anglophone/Francophone stories
- Maintain balance and accuracy

A NOTE ON DESIGN AND MEDIA PRODUCTION

The design of the exhibitions is still being finalized in many cases. Similarly, media production is in its early stages. For this reason, some of the visitor experience data sheets have not been completed. The missing information will be incorporated as the exhibit design and media treatments are finalized.

Overall, this report is an evergreen document that will be revised and updated throughout the course of the project.

INTRODUCTION TO HUMAN RIGHTS - L2 Z1

s.20(1)

s.21(1)(d)

FAST FACTS:

- The first exhibit zone in the visitor's journey, a physically dramatic space;
- Sets up concepts of human rights, across different cultures and time periods;
- Places Canada's achievements in an international context;

OBJECTIVES:

After visiting the zone, the visitor will:

- Learn that human rights are an expression of human dignity, and that the struggle for their achievement is still not over;
- Be receptive to the contributions made by many cultures, including Canada, to our current understanding of human rights;
- See that human rights concepts, practices and instruments have evolved over time.

DESCRIPTION:

The introduction to Human Rights Gallery sets the foundation for building the knowledge, attitudes, and skills that visitors will develop during their visit to the Museum, with the ultimate goal of inspiring them to action. Visitors will see their own realities acknowledged here and will confront the realities of people different from themselves. Here, people will develop a broader understanding of human rights—encompassing individual and collective rights, responsibilities, and obligations that will be expanded in the subsequent spaces of the Museum.

Visitors will get the information they need to develop their understanding of human rights and to leave this space with an open mind, ready to talk about the topic while respecting a diversity of perspectives. It will be interesting and informative but also, at times, intensely challenging. The uplifting message and the inspirational impact come from the resilience of the human spirit.

This gallery includes the following:

- The Multimedia Immersive Theatre;
- The Human Rights Timeline.

INTRODUCTION TO HUMAN RIGHTS - L2 Z1

CONTENT SELECTION:

The content of this gallery was selected according to the following criteria:

- Stories cover a wide span through time
- Stories encompass many cultures
- Stories, where possible, reflect a gender balance
- Stories highlight Canada's place and contribution
- Stories recognize Indigenous concepts of rights and duties

Canadian Museum for Human Rights

GALLERY	L2 Z1	Introductory Gallery
EXHIBIT	L2Z1-02	Immersive Media Experience - object theatre
OBJECTIVE	<i>Provide a memorable introduction to concepts of human rights.</i>	

EXHIBIT DESCRIPTION:	MOOD (Visitor will feel):
<p><i>Open-sided theatre space with single curved bench for seating. Stage area consists of a very long theatrical scrim from ceiling to floor, rising in height from left to right. Projection scrim conceals objects which are revealed by lighting at key moments in the script. Sound effects and narration. Length of show is about 7 minutes.</i></p> <p><i>There is a large digital event at the forefront of the timeline (opposite side of the gallery) that bookends the immersive experience.</i></p>	<ul style="list-style-type: none"> <i>Intrigued by the dramatic presentation</i> <i>A sense of human solidarity</i> <i>Openness to hear different voices and to learn more about human rights.</i>
MAIN MESSAGE (Visitor will know):	VISITOR EXPERIENCE (Visitor will do):
<i>All human societies of the world have concepts of human dignity and value that inform their lives.</i>	<p><i>On entering the introductory gallery, visitors are attracted to the oversized screen where special visual effects and a powerful soundscape create an immersive multimedia experience.</i></p> <p><i>During the presentation their attention is directed to various places along the length of the 'stage', which is wider than their fixed field of view. They see various objects and images appear and disappear and hear related stories and ideas. At the show's conclusion they take a few seconds to gather their thoughts before continuing their visit.</i></p> <p><i>Lighting helps to create the immersive environment (the show is all around people). There is a provision for cases behind the bench which would also help place visitors "in the show".</i></p>

ABORIGINAL PEOPLES OF CANADA - L2 Z2

s.20(1)

s.21(1)(d)

FAST FACTS:

- Visible from Introduction gallery
- Presents Indigenous concepts of humanity's rights as inseparable from humanity's responsibilities

OBJECTIVES:

- Convey Indigenous concepts of humanity
- Feel the richness and diversity of Indigenous peoples including First Nations, Metis, and Inuit.
- See the historic and contemporary contexts of the Museum's location.
- Be aware of the diversity of Aboriginal languages, the importance of language rights, and the endangerment of those languages.
- Understand a holistic view of rights and Indigenous world-view, and reflect on the physical, mental, emotional, and spiritual realms.

DESCRIPTION:

Here visitors can explore the experiences of Canada's First Nations, Metis and Inuit peoples, in particular their many cultures, spiritual traditions, and ideas of peace and justice. As visitors approach the light-filled theatre that resembles a basket, they see on its exterior greetings in Aboriginal languages in words that express concepts of community and co-existence. Inside the theatre, the inner space evokes a sense of connectedness and equality, encouraging dialogue and the exchange of ideas between speaker and audience. Elders and other members of Aboriginal communities can tell their personal stories, comment on their struggles for human rights and give voice to the persistent strength and cultural identity of Aboriginal communities. Their accounts convey Aboriginal traditions of responsibility, connectivity, and respect for "otherness" – a concept that encourages us to value, not simply tolerate, the differences of other people and communities. Aboriginal content is also found throughout the rest of the Museum. A great deal of that content, including examination of Canada's Indian Residential School legacy and Truth and Reconciliation process, is focused on the tragic number of rights abuses and negative trends confronting Canada's Aboriginal people. By contrast, this is an area of Indigenous definitions of their rights, how they are lived, fought for, and asserted.

This gallery will include the following:

- Film/performance space;
- Basket theater;
- Aboriginal perimeter exhibits.

Canadian Museum for Human Rights

ABORIGINAL PEOPLES OF CANADA - L2 Z2

CONTENT SELECTION:

The content of this gallery was developed through a series of consultations with Indigenous experts; Elders, Indigenous academics, community members, artists, curators, human rights experts and after collected proceedings from members of the Aboriginal Curatorial Collective and the Content Advisory Committee.

Content for this gallery will be chosen according to the following criteria:

- Indigenous concepts of humanity must be seen as balanced;
- There should be appropriate representation of Canadian and/or International Indigenous peoples;
- It is important that the representation of a broad range of First Nations, Métis and Inuit should speak for Canadian Aboriginal peoples; and
- There should also be balance between the representations of genders, age-groups, urban, remote, Reserve, isolated and semi-isolated communities, regions, languages and historic and contemporary contexts in the film.

CANADA'S JOURNEY - L2 Z3

s.20(1)

s.21(1)(d)

FAST FACTS:

- Largest zone in the Museum (883.5m²)
- Essential destination for school groups
- Features notable and less-known events, processes, and decisions that have shaped Canada's human rights culture.

OBJECTIVES:

Visitors to this gallery will:

- Gain a deeper understanding of Canada's complex and, at times, contradictory history as it relates to social justice and human rights and the factors that make Canada's human rights culture special.
- Appreciate the need for ongoing vigilance in Canada to ensure the continued protection of our human rights

DESCRIPTION:

The journey through this gallery begins with a theatre that presents two original films. One film explores Canada's human rights history as a whole, highlighting particular episodes of struggle and success and establishing a unifying framework for the gallery. The second film focuses on the distinctive perspective and experiences of the Province of Quebec, showing that province's particular issues and the ways in which it has served as a leader in promoting human rights in Canada. Together, the films address the gallery's main question: "*what makes Canada's human rights culture unique?*"

Visitors then explore this open, two-storey gallery and its multi-layered and dynamic presentations of Canada's human rights advances and setbacks and our nation's development of human rights laws and institutions. At inauguration, the gallery will feature approximately 74 different stories from Canadian history including such topics as French language rights, the Chinese head tax, the Komagata Maru incident, racial segregation and Black Canadian history, and Canada's internment operations during World War I, all told from a variety of perspectives and using a variety of media. There is no single viewpoint of Canada's human rights history, no one dominant narrative or standard account. Canadian human rights history is more like a 'patchwork quilt' than a single linear narrative. All of the pieces present human rights stories—some traumatic, some inspiring, others iconic—and all speak to a rich and distinct legacy, a multi-textured reflection of Canadian identity.

This gallery includes the following main visitor experiences:

- A video theatre with two films;
- Interactive floor game;
- Share your story booth;
- Kitchen Table;
- Image Grid;
- Digital Canvas and performance spaces;
- Story niches.

Canadian Museum for Human Rights

CANADA'S JOURNEY - L2 Z3

CONTENT SELECTION:

The development of the mix of stories for the inaugural exhibition was influenced by information from and consultation with many individuals and groups. These consultations included:

- Several meetings with and presentations to the CMHR Board Of Directors where members expressed their views and concerns;
- Conversations with individuals and groups whose stories will be featured;
- Meetings with teachers' groups;
- Careful examination of the findings of the Content Advisory Committee of the museum;
- Consideration of materials generated from Public Engagement 1;
- Participation in Public Engagement 2 (Fall 2010-Winter 2011);
- Input from the CMHR Human Rights Advisory Council;
- Feedback from and meetings with stakeholder and special interest groups;
- Meetings with Moe Levy of the Friends of the CMHR; and
- Consultation with numerous outside experts, including historians and other human rights experts.

The stories and topics addressed in this gallery were selected because they:

- Were identified as important/significant in our various consultation processes and by various stakeholders;
- Are about an event, people, or developments that have had a major impact... or has been a significant turning point;
- Are rich in resources that are suitable for exhibits; and
- Will appeal to a varied audience.

The mix of stories was also selected for balance based on the following criteria:

- Showing different points of view (such as human rights defenders, targets, or allies, for example);
- Encompassing different governments and political units within Canada and internationally;
- Demonstrating the connections – temporal, thematic – between stories and over time;
- Reflecting the constitutional architecture of Canada (such as federalism, the position of Quebec, Aboriginal rights under Treaties and Sections 25 and 35 of the Charter, equality rights of women, multiculturalism, etc.), balancing this against their treatment in the Canadian Challenge zone;
- Having stories at different stages of the development of our understanding of human rights, and of regional, national, and international human rights instruments;
- Reflecting the diversity of Canada – regional; language and culture; economic situation; group characteristics like race, ethnic origin, gender, sexual orientation, religion, disability, age, immigration status, and family status, among others;
- Showing issues at various stages of resolution, such as human rights victories, continuing conflicts, and emerging issues;
- Using all of the exhibit elements in the room to optimal advantage; and
- Being consistent with the CMHR brand – presenting stories that galvanize debate, reflection, dialogue, and action.

CANADA'S CHALLENGE - L2 M

8.20(1)
8.21(1)(d)

FAST FACTS:

- One of the smallest galleries in the Museum.
- Sheds light on the unique character of Canada's three-part legal heritage

OBJECTIVES:

- To help visitors understand how rights are protected in Canada.
- To show how different legal traditions have shaped the Canadian legal system
- To show how change in the human rights arena come from individual and collective actions

DESCRIPTION:

This gallery explores the Canadian system for the protection of human rights. It helps visitors understand how rights are protected in Canada, how to claim them, and how to prevent further violations.

The emphasis throughout is on narratives that show how changes in the human rights arena have come about from both individual initiatives as well as group mobilization and activism.

Canadian society is animated by a number of values that bind its citizens together, regardless of whether they live in a common law, civil law, or aboriginal law jurisdiction. Using documents and artifacts, this gallery explores Canada's distinctive legal system and the different legal traditions that have influenced it, including British Common Law, French Civil Law, and Indigenous traditions.

Visitors will be encouraged to participate in debates over polarizing issues where potential clashes exist between different human rights, express their agreement or disagreement with national and international court rulings, and contribute to the dialogue about current issues and Canada's future. It will reinforce the message that everyone has a voice and that people can take action in order to achieve change using the different tools that have been incorporated into the system.

This gallery will include the following main visitor experiences:

- The Living Tree;
- Canada's Legal Traditions;
- Debate Table.

Canadian Museum for Human Rights

CANADA'S CHALLENGE - L2 M

CONTENT SELECTION:

The content in this Gallery was selected according to the following criteria:

- Stories show individuals achieving change in the human rights arena at the judicial level;
- Stories show groups organizing, mobilizing, and claiming their rights at the political level;
- Stories illustrate the constant adaptation of human rights to emerging realities in Canadian society;
- Stories represent a conflict of rights;
- Stories relate to the different legal traditions that have shaped the Canadian legal system;
- Stories mesh with topics in the Manitoba school curriculum;
- Stories have a strong potential for sparking lively discussion.

EXAMINING THE HOLOCAUST - L3 Z1

s.20(1)
s.21(1)(d)

FAST FACTS:

- Large dramatic gallery at the center of the Museum
- Presents lessons and explores the most thoroughly researched genocide in history.

OBJECTIVES:

Two key insights from this gallery will empower visitors to make positive social changes:

- Even in the most developed societies, human rights are fragile
- Ongoing vigilance today against anti-Semitism, racism and other oppressive attitudes is essential.

DESCRIPTION:

Examining the Holocaust is a unique addition to the worldwide body of Holocaust-related exhibit experiences. In this gallery, the Museum's approach to the Holocaust is not memorial, but deliberately analytical. The gallery as a whole poses two questions: *how?* and *why?* and addresses them through three distinct but related themes in the exhibits. These themes—abuse of state power, spreading fear and hatred, and war and genocide—invite visitors to reflect on the complexity of the Holocaust, while gaining insights applicable to Canada and the world.

Visitors learn what happened in the Holocaust and consider aspects of the Holocaust with broad relevance to human rights struggles today. They become sensitized to the same vulnerabilities in modern societies that seventy years ago contributed to the murder of six million Jews and millions of others. The gallery's theatre shows a documentary film on Canada, anti-Semitism and the Holocaust. As well, visitors are introduced to the distinguishing concepts of genocide, first identified in 1943 by the Holocaust scholar Raphael Lemkin and used internationally as a teaching tool since then.

Through this journey, visitors increase both their appreciation of the relevance of the Holocaust and their discomfort with anti-Semitic, racist, and similar marginalizing attitudes and actions.

This Gallery includes the following:

- Film theatre;
- Examining the Holocaust Perimeter Wall Exhibits;
- Large Vitrine;
- Lemkin's Techniques of Genocide.

Canadian Museum for Human Rights

EXAMINING THE HOLOCAUST - L3 Z1

CONTENT SELECTION:

In the main gallery exhibit looking at corruption of state power, spreading fear and hatred, and war and genocide, stories are being selected based on the following criteria:

- Story fits the exhibit message;
- Story is corroborated by sound scholarship;
- Story corresponds with Holocaust chronology presented through the three themes;
- Story is compelling and has human rights relevance;
- Powerful quotations, images and artefacts from the story are available;
- Together the stories represent a cross-section of Nazi violations;
- Stories within the themes reflect a diversity of viewpoints, including women and children;
- Stories will be illustrated through local Canadian survivor testimony.

For the Techniques of Genocide exhibit, stories are being selected according to the following criteria:

- Recommendations in a Content Development package on Raphael Lemkin for the CMHR by an international expert in genocide studies and Raphael Lemkin;
- There is verifiable evidence that Lemkin viewed the events as genocides;
- The story accurately and authentically conveys a particular technique of genocide in a manner that corresponds to Lemkin's use of the technique;
- The stories taken as a collective accurately and authentically cover the diverse types of events that the concept of genocide can cover;
- There is sufficient material available for research (bearing in mind that much of Lemkin's unpublished material is in archives and cannot be viewed without travel expenses) or by scholars working from Lemkin's archival collection, to ensure accuracy and authenticity in representation;
- There is sufficient material relating to the story to make a visually compelling exhibit from a visitor-experience perspective.

HOPE AND HARD WORK - L3 Z2

s.20(1)
s.21(1)(d)

FAST FACTS:

- Bright, open exhibit follows the dark experience of the Holocaust
- Presents and explains the Universal Declaration of Human Rights

OBJECTIVES:

Visitors will be:

- inspired to hope by the vision of human rights to protect human dignity
- challenged to action by the hard work of individuals and groups to make social change

DESCRIPTION:

In the aftermath of the terrible human cost of two World Wars, the Universal Declaration of Human Rights, with its two accompanying Covenants, expressed the conviction that every human has dignity. That hope continues, to protect the human dignity of all through the recognition of universal human rights.

Around the globe, people have made tremendous efforts to embody this vision in real life situations. This work is hard, and often frustrating. But because of it the world has seen a dramatic expansion of international and regional human rights laws and institutions. Meanwhile, the meaning of human rights is debated and refined. This never-ending human rights conversation between the *hope* that we can make our world more equal, free, and secure for everyone, and the gritty *hard work* to see this vision embodied in people's lives, is essential to transforming our world.

Visitors to this gallery become familiar with the content of international human rights and Canada's role in it (notably, the contribution of the first drafter of the UDHR, John Peters Humphrey). They can appreciate that these rights have not yet been fulfilled in many people's lives, and see that these promises are made real as the result of hard work by regular people - individually and collectively - who have looked to international human rights law to bring about social change.

This Gallery will include the following main visitor experiences

- Diptychs;
- John Humphrey;
- Human Rights Instruments;
- UDHR Soffit Projections.

HOPE AND HARD WORK - L3 Z2

CONTENT SELECTION:

This gallery is organized to reflect the interplay between the lofty aspirations of international human rights and the gritty realities of trying to make these rights a reality in people's lives.

The Universal Declaration of Human Rights and Canadian John Humphrey's contribution to the Declaration anchor the gallery.

- The human rights revolution exhibit features twelve international human rights legal instruments, which were selected on the basis of broadly recognized significance by the global human rights community.

In the social movement diptychs exhibit, the main themes for inaugural include children's rights, women's rights, rights of indigenous peoples, rights of persons with disabilities, religious freedom, the anti-apartheid movement (South Africa), LGBTIQ rights, and the right to personal security. These themes were selected according to the following criteria:

- The theme is connected to an important human rights instrument, institutions, concept or practice;
- The theme is compelling, fresh and relevant to a wide audience;
- The theme has connections to Canada;
- There is strong scholarly recognition of the theme;
- Effective, high-quality media are available to illustrate the theme;
- The inaugural themes together reflect a broad range of human rights struggles;
- Taken together, the themes cover issues that transcend local circumstances and reflect global concerns;
- Stories within themes reflect a diversity of viewpoints, including women and children;
- Stories within themes reflect concerns of the communities consulted in the research process.

BREAKING THE SILENCE - L3 Z3

s.20(1)
s.21(1)(d)

FAST FACTS:

- A quiet respectful space where visitors can learn about many mass atrocities.

OBJECTIVES:

- To encourage visitors to understand that terrible human rights violations continue to occur and to and break the silence regarding genocide.

DESCRIPTION:

The worst human rights violations in recent times were perpetrated by nation-states that systematically stripped targeted groups of their rights, including their right to life. Many of these events were denied even as they happened, or silenced by fear and shame. In this gallery, visitors are invited to help break that silence—an important first step in the quest for universal human rights protection.

Rather than memorialize past violations, the gallery adopts an activist approach. Social change happens best in conditions when people summon the courage to risk complaining publicly about injustice, are able to envision a better path, and can organize themselves to work together toward this new vision. For our visitors, simply acknowledging and studying the atrocities presented in the interactive table and media carrels is an act of resistance against these violations.

Also in this gallery, the Museum highlights the successes of some of Canada's diaspora communities in their campaigns to break the silence regarding genocides (the worst category of human rights violations) against their own ethnic, racial, religious, or national group. Five genocides formally recognized by Canada's federal government are featured: the Armenian genocide, the Holodomor, the Holocaust, Rwanda, and Srebrenica.

This gallery includes the following main visitor experiences:

- Study table;
- Breaking the Silence in Canada exhibits;
- Study carrels;
- Film theatre: The Holodomor.

BREAKING THE SILENCE - L3 Z3

CONTENT SELECTION:

In the Breaking the Silence in Canada exhibit, Canadian Parliament's formal recognition of five genocides functions as the primary selection criteria for these events.

The selection of events for inaugural treatment in the other exhibits within the Breaking the Silence gallery has been made through a qualitative assessment, which considers the criteria listed below. These criteria do not comprise a checklist that each event must meet for inclusion, but rather ensures that this exhibit features a representative cross-section of global-large scale human rights violations.

- There is a large enough body of reputable and balanced scholarship to inform responsible exhibit content development;
- Human rights were violated in a manner which “outrages the conscience” of humanity (UDHR Preamble);
- There is a strong connection between the atrocity (or its aftermath) and Canada;
- Individuals were targeted based on their actual or perceived group identity;
- The violations were experienced as dehumanizing by members of the out-group;
- The perpetrators themselves were dehumanized by the barbarity of their actions;
- A nation-state was directly or indirectly involved in the violations;
- The acts of atrocity were done systematically;
- The atrocity had significant scope, intensity and range;
- The event fits the elements of genocide, crimes against humanity, war crimes, or the crime of aggression, according to the relevant international instruments (e.g. the Rome Statute of the ICC);
- The atrocity affected humanitarian or human rights instruments, institutions, concepts or practices;
- There is a historical relationship with other mass atrocities;
- Taken together, the list of events serves as a representative cross-section of global large-scale violations;
- Taken together, there is a representative balance between relatively well-known atrocities and those that are largely unfamiliar;
- Stories illustrating events reflect a diversity of viewpoints, including women and children;
- Stories illustrating events reflect the concerns of communities consulted in the research process.

THE FORUM - L3 Z4

s.20(1)

s.21(1)(d)

FAST FACTS:

- A smaller gallery with a high ceiling, visible from several points along the ramp
- An inspiring youth focused gallery featuring positive Canadian stories and interactive experiences.

OBJECTIVES:

Visitors to the gallery will:

- Learn how ordinary Canadians are working to uphold human rights
- Appreciate the potential of music to support human rights
- Feel encouraged to act against bullying.

DESCRIPTION:

This gallery, which is one of the most youth-oriented in the whole Museum, explores how ordinary Canadians are working to uphold human rights. It tells stories of grassroots action for change and touches on topics that visitors of all ages can relate to.

The interactive game on bullying is the centrepiece of this gallery. It is flanked by eight wall panels featuring positive Canadian stories, past and present. Another component is the music platform where visitors will be able to listen to songs that have inspired human rights.

Each of the three components presents a different experience and a different level of engagement with technology and media.

The Game and the Music Platform are expected to have strong youth appeal and relevance, although adults too will find the topics of interest. All components have potential for programming and education involvement, in particular the Interactive Game and the participatory Music Experience.

This gallery offers three main visitor experiences:

- Wall graphic panels on ordinary Canadians and human rights
- Interactive Table Game on Bullying
- Music experience platform

HUMAN RIGHTS TODAY - L4

s.20(1)
s.21(1)(d)

FAST FACTS:

- A lively up-to-the-minute look at human rights around the world.

OBJECTIVES:

Understand how strongly human rights are interrelated and interdependent.

DESCRIPTION:

In this gallery the visitor comes face-to-face with contemporary global human rights struggles. Current issues and emerging trends that resonate in multiple contexts and encompass different lived experiences unfold and are explored through multiple means. This gallery conveys the idea that the struggle for human rights is pressing and ongoing around the world. The gallery provides exploration of current human rights challenges and responses occurring around the world that, in turn, foster critical thinking and illustrate the interdependence of human rights.

The global human rights landscape is filled with great challenges that we, individually and collectively, have the responsibility to address. Visitors have an opportunity to examine global and country-specific facts and figures on key human rights issues, such as hunger, military conflicts, gender inequality, mortality rates of children under five, and civil and political freedoms.

Among the distinctive exhibits are: an interactive, multi-user map of issues around the world; a lively display of everyday objects with human rights implications; constantly updated current issues exhibits; video and graphics showing human rights defenders, and the effects of poverty around the world.

This gallery includes the following main visitor experiences:

- Everyday Objects Display;
- Interactive Wall Map;
- Media Literacy Mini-Theatre;
- Collective Initiatives;

HUMAN RIGHTS TODAY - L4

CONTENT SELECTION:

The Human Rights Today gallery is the main place where the visitor comes face-to-face with contemporary global human rights struggles.

The stories and topics addressed in this gallery were selected because they:

- Demonstrate the indivisibility, interrelatedness and interdependence of human rights;
- Have resonance in multiple contexts and encompass different lived experiences;
- Highlight the human rights dimension of key current issues, globally and nationally;
- Feature struggles and achievements;
- Consistent with the CMHR brand: presenting stories that galvanize debate, reflection, dialogue, and action; and
- Are current and rich in resources that are suitable for exhibits and readily available for inaugural.
